

Inhumane Existence is a Death / Brutal Metal band from Lausanne, Switzerland, founded in 2015. Their songs are made to make you headbang while you travel through technical, brutal riffs, slams and blast beats.

They're heavily influenced by bands such as Dying Fetus, Job for a Cowboy, Cerebral Bore, Abominable Putridity and many others. As far as lyrics go, Inhumane Existence explores the egyptian mythology, violent torture methods across multiple eras and civilisations as well as important creations and technologies which contributed to the growth and development of human society as we know it today.

The first concert at Grand V Rock (Lausanne) on march 11, 2017 was a huge success and shortly after they had the opportunity to share the stage with Deos (FRANCE) and Ade (ITALY) in Yverdon-les-bains.

Since the first EP «Pierced and Confined», a new single «Pneumothorax» was released. Filmed & recorded by D-AMF Studios and promoted by Slam Worldwide.

Inhumane Existence is currently working on their first studio album. More information soon.
